1979 Article Index

Electrical/Electronics Assembly

Productivity & Cost Improvement Ideas, Jan. p. 22
PWB Work Centers Save $ Billions, Part 1, Joe Keller, J. Dennis Keller, Richard Keller, Feb. p. 14
PWB Work Centers Save $ Billions, Part 2, Joe Keller, J. Dennis Keller, Richard Keller, Mar. p. 12
PWB Work Centers Saves $ Billions, Part 3, Joe Keller, J. Dennis Keller, Richard Keller, Apr. p. 20
What's New in PWB Connectors?, May p. 20
Olds Cutlass Assembly Center Prevents Interconnect Problems, June p. 26
Premolded Chip Carrier for Mechanized Assembly and High Density Packaging, July p. 20
Are You Ready For Fiber Optics?, Terry Bowen, AMP Inc., Aug. p. 20
Determining Labor Content of Automatic Component Insertion Operations, I.S. Gill, BASF Systems Div. of BASF Wyandotte Corp., Sept. p. 26
Programmable Controllers And Robotics—Which Is In Control?, Jerry Vieira, Control Products Div., Texas Instruments Inc., Oct. p. 22
PWB Connectors: Where We Are and Where We're Going, Robert A. Ploudre, Amphenol North America Div., Bunker Ramo Corp., Nov. p. 22
One-Shot Temperature Indicators, Dec. p. 14

Ideas and Developments

Wire Marking System Marks the Way to Savings, June p. 32
One Step Insulated Splice Boosts Output, Cuts Cost, July p. 24
Stop Itchy Throats and EPA With Electronic Smoke Scrubber, Oct. p. 26
Wipe Away Your Problems and Save Money to Boot, Oct. p. 29
Orbital Forming Rivets Brittle Ceramics, Dec. p. 15
Inlay Clad Strip Makes Complex Switch Possible, Dec. p. 16

Design/Fastening/Joining

Productivity & Cost Improvement Ideas, Jan. p. 32
Self Locking Nuts . . . Making Sure They Perform, James T. Reeber, Kaynar, a Microdot Co., Feb. p. 22
Don't Overlook Eyelets . . . The Versatile Fasteners, Edward C. Dalterio, Eyelet Div., USM Corp., Mar. p. 20
ANSI Metric Fastener Standards Log, Apr. p. 30
Guidelines to Effective Fastener Selection, Jim Speck, Holo-Krome Co., May p. 28
Vibration Welding: Fast, Quiet, Efficient, Richard D. Holtz, June p. 36
A Guide to TLC* of Mechanical Face Seals, John C. Dahlheimer, International Packings Corp., July p. 26
For Special Applications: Special Blind Rivets, Paul A. Gustafson and Mark P. Spector, Emhart's USM Corp. "POP"® Rivet Div., Aug. p. 28
Progress Report on Metric Retaining Rings, Jack B. Levy, General Electric Co., Sept. p. 32
Using Metric Threaded Steel Fasteners? Here's A Fast Metric Torque Test, Jon C. Nipple, Office Products Div., IBM Corp., Oct. p. 34
Tension Control Systems Stretch Fasteners and Profits, Nikita Andreiev, Nov. p. 30
Take a Systems Approach to Adhesives Assembly, Bruce Murray, Loctite Corp., Dec. p. 18

Ideas and Developments

Printed Crankcase Gasket Replaces O-Rings, Mar. p. 24
Prefinished Sheet Metal Is Joined Without Fasteners, Welds or Adhesives, June p. 44
Secure Fragile Parts Safely With A Two-Part Fastener, June p. 47
Anti-Camout Recess, July p. 31
The V Recess: NASA Inspired Hole in the Head for Fasteners, July p. 33
Industrial Fastener Update, Richard B. Belford, Industrial Fasteners Institute, Dec. p. 24
Foamed Hot Melt Adhesive Introduced, Dec. p. 25

Assembly Systems/ Production Test

Productivity & Cost Improvement Ideas, Jan. p. 40
Ultrasonic Industrial Cleaning—Sometimes the Only Choice, Thomas H. Calhoun, Branson Cleaning Equipment Co., Feb. p. 30
Flexible Assembly System Yields Versatility, Professor W.B. Heginbotham, Nottingham University, Mar. p. 30
Assembly Robot Update, Apr. p. 42
Share Planning—Not Insults, Part 1, Frank J. Riley, The Bodine Corp., May p. 36
Keys to Assembly Machine Productivity, Part 2, Frank J. Riley, The Bodine Corp., June p. 50
Computer Controls Driverless Carriers in Tractor Plant, July p. 38
Smart Sensors Are Enhancing Flexible Automation, J.A. Weaver, Philips Research Laboratories, Aug. p. 32
Automatic Screwdrivers: Putting the Screws to Low Productivity, Nikita Andreiev, Sept. p. 40
The Laser Beam—Modern Non-Contact Inspection Tool, Norman A. Pierce, Automation Systems Inc., Oct. p. 42
Control Systems for Automatic Assembly, Nov. p. 38
Low Cost, High Reliability Dictate Conservative Assembly Line Design, Dec. p. 28

Ideas and Developments

Low Cost Computerized Labeling Saves Production Time, Sept. p. 46

Management

Improving Assembly Productivity, Jan. p. 46
A Secret "Weapon" for Every Company, Feb. p. 34
Four Steps to Better Job Performance, Woodruff Imberman, Imberman and DeForest, Inc., Mar. p. 36
"Productivity is Way Up" "Assembly Capacity is More Than Doubled," Apr. p. 50
Looking At Computers For Assembly? If Not, You May Be Missing Big Savings, Nikita Andreiev, May p. 46
CAD In Assembly—Technology or Magic?, Nikita Andreiev, June p. 58
Manufacturing Engineer Today—More Brains But . . ., July p. 42
Assembly Instructions Made Easy With Photos, Kenneth H. Brunskill, Audio-Visual Systems Div., Ampex Corp., Aug. p. 24
Teaching Teachers About Metric, Richard D. Holtz, Sept. p. 50
Smoke Out Those Hidden Costs, Bob Kelly, Oct. p. 50
Flexible Work Schedules—An Update, Part I, Terrence Thompson, Nov. p. 46
Flexible Work Schedules—An Update, Part II, Terrence Thompson, Dec. p. 34

Ideas and Developments

Rate Your Company With This Do-It-Yourself Productivity Checklist, William J. Oshinski, Patton Consultants, Inc., Jan. p. 50
AUTOFACT II/ASSEMBLEX '79, Oct. p. 58

Down the Line

Pacemakers: Smaller, Smarter and Tougher, Jan. p. 88
No Magic In Indy's Dragon, May p. 88
Weight-Watching Autos Made of "Smart" Steels, June p. 106
Comfy Big Birds With Low gpm*, Sept. p. 102
Chip Off a New Block Is Christmas Turn On, Dec. p. 70
